check in

Thursday we are leaving for Rochester (appointments Friday), I have a doctor appointment on the 10th (first in over a year!), Then my mom has to be in the Rochester hospital (we think only one day for a procedure) on the 12th.

I did re-read my dissertation and look at the data results but I need to connect with Abbey again (from CESR) as I have forgotten some of what the results mean and how to write it up. I will be emailing her today as well to see if I can get to see her before my new job starts on the 24th, but I do not know if she works over the summer so it may have to wait.

Again, sorry for the delay, I hadn't been on my computer at all checking emails at all! Right now we are at chemo and I was able to find a place to sit and work while we wait for the infusion.

I will let you know my plans once I reach Abbey; is there something I should be doing if I cannot write chapter 4 yet? I know what the results showed, but writing it up formally is where I need Abbey's help.

Thanks,

Deanna Fosness
