**Subject:** Committee Member

Dr. Johnson,

I am currently putting together my dissertation committee and am hoping that you'll consider being a committee member. My dissertation topic is "The Impact of the Impostor Phenomenon on Community and Technical College Presidents in the Upper Midwest." I have decided to look at this population specifically because community and technical college presidents are more likely to be racially diverse leaders, so I want to see how Clance's theory of impostorism might impact these leaders more or less than their white counterparts. If you are interested, please let me know. I am currently finishing Chapters 1-3, so I will be ready for your guidance as we approach November. Please let me know if this is something that you would be interested and able to do.

All the best,
